

Virtual pet prescription visits, now in Ontario

Meet with a vet by video about a prescription for your cat or dog, from flea and tick prevention to relief for upset stomachs, itchy skin, and allergies.

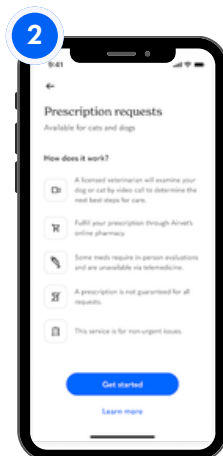

How to schedule a prescription visit through Airvet

Available for cats and dogs

Request a prescription visit

Tap More ways to connect, then Prescriptions.

Schedule your appointment

Book a weekday visit at least one business day ahead.

Virtually meet with a vet

Join by video with your pet so the vet can assess them.

Fill your pet's prescription

Once prescribed, fill it through our partner pharmacy or a local one.

Currently available in Ontario. Live elsewhere? Airvet can still help.

Even if prescription services are not available in your province, there are many over-the-counter options that a veterinarian may recommend to help manage your pet's symptoms. Connect with a vet to learn more.

Prescription visits are for non-urgent needs, are available with select Airvet memberships, and are subject to provincial regulations. A prescription is not guaranteed. If in-person care is recommended, visits and prescriptions through Novel are paid out of pocket and are not included in your membership. Check membership details in the Airvet app or contact support@airvet.com.

Airvet is 24/7 virtual vet care at no cost to you.
