

November: National Senior Pet Month

November is National Senior Pet Month, a good time to remind your team that a senior pet consultation with Airvet can help them tell the difference between normal aging and something worth a closer look. We've provided a few options below for your internal channels. We suggest sharing in early November, perhaps after annual enrollment closes and before the holiday season picks up later in the month. **Have a question? Is Your Pet Slowing Down? Here's How to Tell 🐕

Aging looks different for every pet, and it's not always easy to tell what's normal and what's not. That's exactly what a senior pet consultation with Airvet is for.

A senior pet consultation can help when there's:

- Less interest in play or more time resting
- Shifts in appetite, weight, or sleep
- New stiffness getting around
